

JAPANESE LANGUAGE COURSE (OPTIONAL)

Keio Business School offers Japanese Language Courses (fee applies, non-credit). We offer two classes: Beginner class and Intermediate class (see below). You may register first, then confirm your registration after joining the first class on **Jan.15, 2018.**

Japanese Language for Beginners

An introductory course for real beginners and/or students with only a little knowledge of Japanese. Emphasis is put on listening comprehension and speaking. Lessons and exercises center around useful daily conversation.

Intermediate Japanese

This course is designed for MBA candidates who have studied Japanese for 300 hours or more (Japanese Language Proficiency Test Level 3). While emphasis is put on business conversation, Hiragana, Katakana, and some Kanji are used for reading and writing. The contents will be arranged to fit for the level of the participants.

The classes are held at Discussion Room 5 on the 5th Floor of Kyosei-kan (Collaboration Complex Building where KBS locates).

Students who wish to take this course must fill out the registration form and send it to the administration office by **Nov. 10th (Fri), 2017.** Please be sure to mention your level of the language.

Since this course is arranged specially for exchange MBA students, participants will have to pay the tuition of this course at the time of official registration. You can attend the first lesson at no cost for trial. From the second lesson on, you have to pay full tuition (25,000 yen). This tuition is not refundable.

Please note that the class will be cancelled if the number of participants is three or less for each level.

Japanese Language Course
